

Asphalt Paver RP802

Asphalt Paver

Asphalt paver RP802's blade is cast from high wear-resistant alloy material. By using high hardness wear-resistant steel, the conveying plate has gone through perfect heat treatment. Belonging to construction machinery, asphalt paver RP802 has the characteristics of simple operation, easy maintenance, high quality and work efficiency.

Detailed Description of Asphalt Paver RP802:

1. Basic Working Width:3.0m,
2. Max working Width:8.0m,
3. Max Paving Thickness:380mm,
4. Paving Speed:0-14m/min,
5. Traveling Speed:0-3.0km/h,
6. Theoretical Productivity:600t/h,
7. Hopper Capacity:13t,
8. Gradient Ability:20%,Smoothness:3mm/3m,
9. Slope Leveling Tolerance:±0.02%,
10. Engine Type:BF4M1013C(Deutz),
11. Rated Output:112kw,Speed:2300r/min,
12. Generator Power:20kw,
13. Weight of Asphalt Paver RP802:15.5-23.5t,
14. Overall Dimension:6230×3000×3855mm
